

Sport Sedan Project

PROJECT AIM

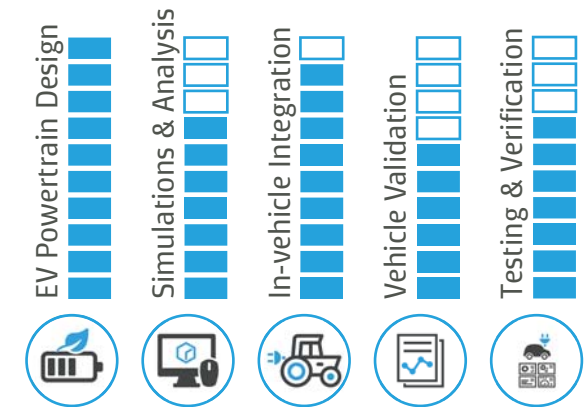

Privé has been part of a project of a new premium electric vehicle development. Together with one of the most promising e-start up with an international footprint it has been involved in the powertrain definition and supplier scouting activity to reach the aimed range of 650 km.

DESCRIPTION

The prototype developed with the best in class European tier supplier has been equipped with a high energy density lithium-ion battery pack of 125 kWh with a total range of 650km, 300 of which rechargeable in less than 30 minutes in DC Charging.

The vehicle has been equipped with 3 motors to reach a max speed of 250 km/h and a 0-100 km/h in 4.9 secs.
